Ronald Charles Davis

On January 23rd, 1970, Spec 4 Ronald Charles Davis was killed in action while on a mission in Viet Nam. Just over a week later, on February 1st, the Community Church was full to over-flowing as family, friends and military came to pay their last respects to a fine young man. Ronny was the first New Boston citizen to die in battle since World War I. Words cannot express the feeling of pain and emptiness felt by his family and friends.

Ronny was born and brought up in New Boston and was a 1966 graduate of Weare High School. He had been an active member of the Future Farmers of America and the 4-H Club while in New Boston schools. He had transferred to Weare in his Senior year at the close of NBHS. After completing school, he was employed by a local contractor.

Ronny entered the U. S. Army on January 17, 1969. He had been serving in Viet Nam for the past seven months where he received the Purple Heart after being wounded in action last October.

Certainly Ronny will be well remembered by those of us who knew and loved him.

PAUL G. MANSFIELD, Forest Fire Warden

Fire Warden's Report

Less fortunate than our northern towns, we had too many fires. Carelessness in burning trash and discarding smoking material and children playing with fire caused most of the fires. Your Forest Fire Warden's job would be easier if everyone understood the State laws that govern the kindling of outdoor fires. A synopsis of these laws follow:

Fire Permit

A *fire permit* is needed for all outdoor fires in or near woodland anytime the ground is not covered with snow. This includes household waste burning, even if in an incinerator, grass burning, garden trash as well as brush burning. Such burning is restricted by regulation to be *prior to 9:00 a.m. and after 5:00 p. m.*

Exceptions

Commercial or industrial burning is allowed anytime under normal conditions with permission of the District Chief and a permit from the Fire Warden.

Camp or cooking fires are allowed on your own property with permission of the Fire Warden. On another's property with written permission of the landowner and permission of the Fire Warden. The Warden can forbid such fires if in a hazardous area. Permits for cooking fires in the White Mountain National Forest can be obtained

from the Laconia Office or at the Ranger Stations. Permits are not required in public camp or picnic grounds where fireplaces have been built for this purpose.

Penalties

1. For kindling a fire without a permit. Maximum of \$200.00 fine; or imprisonment for not more than 60 days.
2. For kindling a fire by any means wilfully or recklessly that shall endanger woodlands the maximum fine is \$500.00 or year's imprisonment.
3. For failure to totally extinguish a camp or cooking fire before leaving it the same penalties as in (1) above.
4. For dropping inflammable material in or near woodland, maximum fine is \$25.00.

Fire prevention is a personal matter and a good habit. Keep our town free from smokes in 1970.

PLANNING BOARD REPORT

A new member, Rhoda Clark, was appointed to the Planning Board, replacing Renaud Pelchat, whose term has expired.

Officers elected for the year: Jeremiah Kennedy, Chairman; Marjorie Colburn, Secretary-Treasurer. Nine regular meetings were held as well as four special meetings to accommodate sub-division applicants. Regular meetings are held the second Monday of each month except for July and August.

We spent most of our time hearing subdivision plans and taking action as provided in our Subdivision Bylaws adopted in 1968. The 1969 Legislature changed Subdivision laws somewhat and it is imperative that all owners who plan to sell any portion of land should contact the Planning Board in order to avoid sale complications and possible fine. A parcel of land that is divided in any way for sale comes within the realm of the Subdivision Bylaws.

Toward the end of the year, the Board began a study of local zoning regulations and building codes.

As a result we are holding hearings on a Proposed Building Ordinance for New Boston. After the proper hearings the Proposed Ordinance in its final form will be filed, and the question presented for ballot vote Town Meeting day.

REPORT OF THE FORESTRY COMMITTEE

Accomplishments in 1969

The first improvement harvest sale to the initiated by this committee on the Lydia Dodge lot was completed. \$1,055.44 was received by the Town in 1969, making the proceeds for this sale \$4,047.52 for a total of 303,360 board feet. Removal of overmature low quality trees to increase the growth rate of the residual trees in the forest is the primary objective of this improvement harvest program. All Town owned forest needs this treatment. The needs of wildlife and aesthetic qualities of the forest will also be considered in preparing future sales.

Two Hundred white pine crop trees within the selectively harvested area on the Dodge lot were pruned to increase the value of future growth on these trees. Costs of this operation were subsidized by the Agricultural Conservation Program of the Department of Agriculture.

Plans for 1970

Another improvement timber sale will be prepared on the Lydia Dodge lot. It is anticipated that between 150,000 and 200,000 board feet of timber will be sold in 1970.

Timber stand improvement work will continue. Two acres of pruning and releasing will be done on the Dodge lot. Tree planting is planned for filling in small openings created by removing groups of over-mature trees in last year's sale.

A survey of the Lydia Dodge lot is to be done in the spring as several boundaries are uncertain.

YOUTH CENTER

The Youth Center planned for Pinball Hill and surrounding areas has made some significant progress in 1969. The 125 acre development for all youth in Southern New Hampshire began its capital fund drive in November. The \$300,000.00 goal will enable the construction of a major building and improvements to the overall site in regards to access roads, water and sewerage systems. Phase I construction will begin in the late Spring of 1970 and hopefully be completed by September.

The front cover of this report shows the planned development of the area. Construction and improvements will be accomplished without disturbing the natural area as much as possible. The Hillsborough County 4-H Foundation, Inc. sincerely appreciates the support it has received from the residents of New Boston and especially the Board of Selectmen.

Improvements accomplished in 1969 were as follows: — survey and partial construction of an access road to the summit; installation of tile in the spring for a temporary water supply; electric power lines erected; sign on Route 13 and preliminary clearance of a beginning nature trail.

The Youth Center will be available to the people and youth in particular of the town and certainly will publicize the town as a center for youth and environmental education.

CONSERVATION COMMISSION REPORT

Created by vote of the people at the 1969 Town Meeting, the New Boston Conservation Commission has endeavored in its first year of operation to work under the guidelines set for such local commissions within the state.

Beginning with three members, we requested the addition of two more members to make a five-member committee. The Selectmen agreed and appointed Carolyn Todd and Kenneth Marvell to join the commission. We have held monthly meetings since establishment.

With no funds at our disposal, we have been limited in operation. However, the following tasks have been undertaken:

1. Application for planning grant from the Potter-Spaaulding Charitable Trust.
2. Meetings with the State Conservation Director, the town Forestry Committee and the Board of Selectmen to discuss conservation aims.
3. Held a special public meeting to acquaint townspeople with work of local conservation commissions. Engaged outstanding speaker for meeting.
4. In process of locating and checking out deeds to town-owned lands with special attention given to lands along the Piscataquog River.
5. Investigation into privately owned lands bordering the Piscataquog with eye to the possibility of acquiring parcels for preservation purposes.
6. Received and recorded deed to the Wade Knowlton land along the Piscataquog River.
7. Began study and collection of data relative to town dumps. Will submit reports to the Selectmen.

We recommend that the town formally establish this commission under the provisions of Chapter 36A of the Revised N. H. Statutes Annotated, so we may effectively serve the town in the promotion and protection of its natural resources. An article has been provided in the warrant for that purpose. We also ask your approval of article 9.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of New Boston:

I herewith submit my eighth annual report relative to the schools of New Boston.

Mr. Jeffrey Stevens assumed the duties of Principal of the New Boston Schools in September 1969 after several years of successful teaching experience in the Goffstown Schools. Mr. Stevens, trained in elementary education, also has a minor in the special education of children with learning and associated problems. Mr. Stevens realized immediate rapport with the students and teachers. He has gained the respect of the community and the administration as an able and inspiring educational leader. Newly employed teachers of the able and strengthened staff include Miss Nancy Geyer Grade 4, Miss Margaret Massey Grade 3 and Mrs. Patricia Holbrook Grade 2 and 3.

The present local school population in relation to statistics for the past five years is indicated in the following table:

Grade	1	2	3	4	5	6	Total
1965-66	27	30	38	28	25	28	176
1966-67	40	30	30	41	31	31	203
1967-68	33	40	29	27	36	30	195
1968-69	43	44	33	31	24	39	214
1969-70	38	44	24	37	31	25	199

It is anticipated that for the school year 1970-71 the cost of tuitioning students to Goffstown will increase for two reasons (1) the additional number of tuition students (1969-70—156 students, 1970-71—168 students) and (2) an increase in the tuition charged by Goffstown due to increased costs of nearly all items related to education and particularly increased teachers' salaries. It is interesting to note that the tuition per pupil cost of education for grades 7 & 8 and the high school for 1969 was less than the per pupil cost of maintaining grades 7 through 12 in New Boston prior to tuitioning students to Goffstown.

School costs continue to rise locally with the increase in teachers' salaries to remain competitive commanding the spotlight not only locally but nationwide. The New Boston School Board has established reasonable salaries that will tend to attract and retain desirable teachers.

The schools of New Boston are taking advantage of the education television programs of WNEW, the educational channel 11 of Durham, N. H. This effective medium brings specialists in reading, science, mathematics and music directly into the schools of New Boston.

State-Wide Testing Program

The schools participated for the second year in the New Hampshire state-wide testing program for grades 2, 4, 6 and 8. The test is a comprehensive battery of both achievement and ability tests.

While the greatest value of testing lies in the information it provides about the individual pupil's progress and ability, the standard program also aids in analysing the strengths and weaknesses of the curriculum. Both national and state averages are provided for these tests so that the general level of pupil achievement locally can be compared to that of other New Hampshire communities. At the present time, the over-all results are encouraging. More valid conclusions can be drawn next year when children who were included in last year's program are re-tested.

Area School Study

The fact that the voters of Goffstown, New Boston and Dunbarton approved at their respective March 1969 School District Meetings the continuation of the AREA School Study Committee, keeps alive the spark that may bring the eventual realization of an AREA School Plan for the three towns. New Boston would not only benefit from a continued participation at a reasonable cost in the Goffstown educational system but also from the economies that would be effected by the additional state aid which AREA Plan schools receive. Howard Towne, Chairman, Vaughn Smith and John Young of the New Boston School Board continue to serve as members of the AREA Plan Study Committee.

Acknowledgment

I wish to extend my sincere appreciation for the dedicated work of the New Boston School Board both as individuals assuming many direct responsibilities in the everyday routine of the school day and as a board in establishing policy and refining the educational effort. I wish further to acknowledge the cooperation of Jeffrey Stevens, Principal, the teachers, students, Mrs. Reed Brown, school secretary and the citizens of New Boston. I am deeply indebted for the services of Paul Kilmister, Assistant Superintendent of Schools, Wayne Evans, Business Administrator of Supervisory Union #19, and the loyal support of the office staff, Mrs. Ruth Henk, Mrs. Vicky McKenna and Mrs. Dora Smith.

Respectfully submitted,

ERNEST PELTONEN

Pre-school registration was held on May 14th, 1969. Twenty-six children were present and received vision and hearing examinations. A dental examination was also given. First grade teachers were present for this registration, and appointments were made for school readiness testing to be conducted at a later date.

The value of preschool health appraisal including screening tests lies in the importance of early case finding enhancing correction of defects at an optimal time and before the child enters school. Necessary curriculum and classroom adjustment can be instituted without delay for other children with identified unremediable problems and for those children needing special attention such as speech therapy.

Last year a measles vaccination clinic was conducted by Dr. Snay, State Board of Health and the School Health Service. This apparently has been a very effective program. We had only one case of measles in our school this year.

Vision examinations were made possible through the local Salvation Army Fund and through Sight Conservation.

Our cafeteria workers were given physical examinations including, throat cultures, stool specimens and serology.

A Good Grooming Program for boys and girls at the 6th grade level was presented. Informative literature was made available.

Crest dental health educational program was conducted throughout the first three grades. Mrs. Dastin, a state dental hygienist, visited all class rooms following this program.

Our school health services have had complete cooperation from all community agencies, from New Hampshire Sight Conservation, New Hampshire Bureau of Public Dental Health, New Hampshire Child Guidance, Manchester Community Guidance, New Hampshire Tuberculosis Association, New Hampshire Crippled Children's Association, the local P. T. A. and all supporting agencies.

The school nurse, like the physician, has a different task when working within the framework of the school. To the teacher, she must be a source of information and guidance. To the parent, she must be a friendly counselor, cognizant of community resources, sympathetic with family problems, and an interpreter par excellence of the child's needs as revealed by medical examination and school behavior.

Health is not a condition; it is an adjustment. It is not a state, but a process. The goal of health now, calls for not only the cure or alleviation of disease. Rather, it looks beyond, to strive for the maximum physical, mental and social efficiency for the individual, for his family and for the community.

We wish to express our thanks to the Superintendent, Parents, Teachers, and School Board for their cooperation.

Respectfully submitted,

DORIS N. BAILEY, R. N.

School District of New Boston, New Hampshire
RECORD OF SCHOOL MEETING
March 7, 1969

The meeting was called to order at 8:15 p.m. by Moderator David L. Nixon. The prayer was offered by Reed Brown, and the salute to the flag was led by John Young.

Introduction was made of John Young, Vaughn Smith and Howard Towne of the School Board and a standing ovation was rendered them. Ernest Peltonen, Superintendent of Schools, Paul Kilmister, Asst. Superintendent of Schools, and Wayne Evans, Business Manager of Supervisory Union 19 were then introduced.

Moderator Nixon read the warrant and announced the election of School District Officers for the ensuing year will be held at the time of election of Town Officers.

ARTICLE 1—To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.

On motion by Howard Towne and second by Vaughn Smith,

it was VOTED that the salaries of the School Board and Truant Officer and any other officers or agents of the District be accepted as approved in the budget.

ARTICLE 2—To hear the reports of Agents, Auditors, Committee or Officers chosen, and pass any vote relating thereto.

It was moved by Roland Sallada and seconded by Howard Towne that the reports of all Agents, Auditors, Committees and Officers be accepted as printed in the Town Report. The motion carried.

ARTICLE 3—To choose Agents and Committees in relation to any subject embraced in this warrant.

It was moved by John Young that we pass over this article to return, if necessary, later in the meeting.

ARTICLE 4—It was moved by Vaughn Smith and seconded by Howard Towne that we vote to authorize the School Board to make application for and to accept, on behalf of the District, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or the United States. This article was VOTED in the affirmative.

ARTICLE 5—To see if the District will vote to create and elect an AREA School Planning Committee consisting of three (3) qualified voters of the district of whom at least one (1) shall be a member of the School Board, which committee shall perform the functions and duties set forth therefore in the Revised Statutes Annotated of New Hampshire, Chapter 195-A, for the purpose of considering fully and objectively the question whether New Boston, Dunbarton and Goffstown, and any other town or towns so desirous, should unite to establish an AREA high school in Goffstown, so as to be eligible for increased state building aid, tuition-bonus payments, and such other advantages as are provided for by said R.S.A. 195-A.

It was so moved by Howard Towne and seconded by Vaughn Smith. It was explained by John Young that this article was to be presented annually to the voters while the contract was in effect, in order to keep the committee alive; the present committee consisting of the members of the School Board. He explained the situation as it relates to the Goffstown schools. Under the existing contract, Goffstown would require five-years' notice that the New Boston School District would no longer utilize their facilities. Should we go into an AREA school set up, it would be an almost indefinite contract, the only way out being agreement by all parties involved.

After much discussion, the article was VOTED in the affirmative.

ARTICLE 6—It was moved by John Young, with second by Howard Towne that the School District raise and appropriate the sum of \$242,357.84 for the support of schools, for the payment of salaries of school district officials and agents, and for the payment of the statutory and contractual obligations of the district.

Much discussion ensued on this article. John Young explained that the greatest increase was in teachers' salaries. Plans to increase

possible base pay of teachers to \$6,000 in order to be in a more competitive position, and increment steps the teachers have earned would account for most of the increase recommended by the School Board. Also taken into consideration was the salary of a part-time secretary, designed to relieve the burden from the principal, and temporarily postpone the hiring of a full time principal, which could constitute a much larger increase in the budget, approximately \$8,500 to \$10,000. Consideration has also been given to the problem of bus over-crowding this year, and the anticipated student increase next year, creating a need for an additional bus to transport the children.

Also reflected were the increased tuition costs for utilizing the Goffstown Jr. and Sr. High Schools. It was noted that the increase was not excessive; that we were still paying less for tuition than many other areas.

The School Board affirmed that the \$6,000 salary for teachers would not necessarily be the base figure offered new teachers, but would allow the School Board an opportunity to be competitive. This \$6,000 would be an enticement for experienced teachers, but not necessarily amount offered a first-year teacher.

Bart Hooper decried governmental subsidizing of the school system. In rebuttal, Howard Towne explained that without the assistance of Federal and State government, the town would go bankrupt trying to maintain the present school system; that the building aid which we receive almost pays the interest on the new elementary school.

Richard Hechtl said we must get things back into focus; that he was concerned over where the money is going, but education is the subject of which we were talking. As school psychologist, he pointed out the difficulties encountered by teachers in attempting to control and educate the children in the school.

Charles Gould called for a vote by ballot. Moderator Nixon appointed Bart Hooper and Richard Hechtl to tally the votes. By a vote of 65 affirmative and 34 negative, it was declared a vote in the affirmative.

ARTICLE 7—To transact any other business that may legally come before said meeting.

Gail Parker raised a question concerning the kindergarten discussed at the previous School District meeting. Linda Hersey explained that she understood legislation was pending that would make it mandatory to have public kindergartens throughout New Hampshire.

Marion Dancause presented for consideration the problem of truancy. Howard Towne explained that this must be handled very discreetly and that truancy was being dealt with.

There being no further business, Walter Kirsch moved for adjournment, with second by Robert Normandin. It was so VOTED.

Meeting was adjourned at 10:40 p.m.

Respectfully submitted,
THELMA NEVILLE, Clerk

MILESTONES

- In January a disastrous fire destroyed the home of Arthur Houghton, Sr. on the Weare Road.
- The town accepted a gift of land from Wade H. Knowlton of Goffstown. This land lies between the Piscataquog river and Route 13 on the way to Goffstown.
- The New Boston Community Church installed a new pastor, the Rev. James Uttley. The Uttleys have two young children and came here from Chicago.
- Plastic Techniques, Inc. enlarged the former Gamewell building and installed large modern rotational moulding equipment. They are now producing a variety of large plastic items.
- A recent survey of projected population increases in this area indicates that New Boston will double in size by 1980, and in 50 years will have a population of 10,000. Following is a roster of the 1969 arrivals — 53 adults — 86 children.
